

Lautaro Fullone

Mar del Plata, Argentina | English: Professional Working Proficiency | lautarofullone@gmail.com

*Professional with over **5 years of experience**, specialized in building scalable, high-availability digital products. My career combines the **rigor of critical banking architectures** with the **versatility of independent development**. I enjoy merging the best of both worlds. I focus on **technical leadership** and real quality standards. I don't just work to complete tasks; I work to **strengthen products**. I get involved, I question, I propose, and I build with intention. I view my professional development as a process of constant evolution; I don't stay still because **comfort makes me uncomfortable**.*
